In recent years, mayors and municipal leaders throughout the United States have confronted increasing problems of community safety. These problems have affected not only urban centers but also small towns and rural municipalities. Many other countries have experienced similar rapid increases in crime that have only begun to decline in the past few years. The response of many governments has been to toughen their legal and justice systems, increasing policing capacities and penalties. Despite these efforts, the social and economic consequences of crime have been enormous: Expenditures on law enforcement have increased tremendously. Criminal sentences have become tougher; The number of offenders prosecuted and incarcerated has risen dramatically; Private security personnel have outstripped official law enforcement; Communities increasingly have resorted to fortifying neighborhoods; Crime has reduced the tax base of cities by driving out residents and businesses. Traditionally, the public has viewed crime reduction as the responsibility of the police and the courts. However, in spite of increased expenditures, these institutions have been unable to contain the epidemic of crime. The result has been a loss of confidence...

Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Undoubtedly, this is the best work by any author. It is really simplified but shocks within the 50% in the publication. It has been written in an extremely straightforward way and is particularly just following it finished reading this publication by which basically altered me, modify the way in my opinion.
