

Bless the Bees The Pending Extinction of our Pollinators and What You Can Do to Stop It Bees and other pollinators how to keep an endangered species from becoming extinct

By Kenneth Eade

Paperback. Book Condition: New. Paperback. 119 pages. If the bee disappears from the earth, man would have no more than four years to live Albert Einstein. This beautifully illustrated edition is meant to educate the reader about the potential extinction of the bees as an indicator of a mass extinction, the last one of which was 65 million years ago. It explains what pollination is, who does it, why its essential to us, what things are threatening our pollinators and what we, as individuals, can do about it. They have been in existence for over 100 million years, but it has taken us less than 30 years to kill almost 50 of them off. Bees are responsible for pollinating 60 of the worlds food supply. Without them, the human race would face starvation. A worldwide epidemic, it has been called the bee apocalypse by Russias president, but it is worse in the United States than any other country. Since 1972, feral honey bees in the United States have declined 80 to near extinction, and domestic bees in the United States are down to 60. Since 2006, the epidemic has been referred to as colony collapse disorder, describing the disappearance of...
