

Using Children's Literature to Teach Problem Solving in Math: Addressing the Common Core in K-2

By Jeanne White

Taylor & Francis Ltd. Paperback. Book Condition: new. BRAND NEW, Using Children's Literature to Teach Problem Solving in Math: Addressing the Common Core in K-2, Jeanne White, Learn how to use children's literature to engage students in mathematical problem solving. Teaching with children's literature helps build a positive math environment, encourages students to think abstractly, shows students the real-world purposes of math, builds content-area literacy, and appeals to students with different learning styles and preferences. This practical book provides specific children's book ideas and standards-based lessons that you can use to bring math alive in your own classroom. Special Features: * Step-by-step ideas for using children's literature to teach lessons based on the Common Core Standards for Mathematical Content in kindergarten, first, and second grade * Scripting, modeling, and discussion prompts for each lesson * Information on alignment to the Standards for Mathematical Practice and how to put them into student-friendly language * Reference to a wide variety of specific children's literature that can provide a context for young children learning to engage in the standards * Differentiated activities for students who are early, developing, and advanced problem solvers.

Reviews

Unquestionably, this is actually the very best job by any publisher. It really is basic but unexpected situations within the 50 % from the book. I discovered this book from my dad and i advised this publication to discover.

-- **Dr. Willis Walter**

A very wonderful book with lucid and perfect answers. It is probably the most incredible book i have study. Its been designed in an exceptionally simple way and is particularly just after i finished reading through this publication by which in fact transformed me, alter the way in my opinion.
