Excerpt: .sunlight cannot pass through so much water. In consequence, the Fig. no. fish living One of the deep-sea fish. there have Fig. 115. A part of the globe. What continents and oceans are shown? little use for eyes, and some that have been brought to the surface have none. The mud which covers the bottom is in many places made up of the shells of tiny animals, many of them even smaller than a pinhead. Some of the chalk used in schools was just such mud before it was raised to form rock layers on the dry land. Mountains in the Oceans.--While most of the bottom of the sea is a plain, some parts are not so level. Here and there are mountain peaks, and chains of islands, extending above the sea far away from the continents. Many of these are portions of mountain chains...
