Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Those who had had some experience with city administration began to realize the wastes of uncoordinated, unplanned effort in the different administrative departments and the different administrative activities of the city. I doubt whether at the beginning the social objectives were considered. I think this first sense of the need of coordination and adjustment by means of design -and program-making was felt rather as an economic than as a social activity...
